Statement on Passage of Missouri Amendment 2

Thank you to the voters of Missouri and thank you to all the individuals and organizations that worked so hard for passage of Amendment 2. Now, more than 230,000 hard-working Missourians will be able to access the health care they need to remain healthy, contributing members of society. This is especially welcome now as we face the challenges of COVID-19. We look forward to supporting the State of Missouri on a successful implementation of Medicaid expansion.
